Vith INTERNATIONAL CONGRESS OF HISTORICAL CELEBRATIONS AND REENACTMENTS

"LIVING HERITAGE". Teruel from 4 to 7 October, 2018

ASSISTANTS BASES

GOALS

- Developing in a research and exchange framework the following main themes:

THEMATIC AXIS 1

The social values in the Historical Festivals and Manifestations.

The Historical Demonstrations have shown a great capacity to generate a strong movement of solidarity among their participants.

These Festivals enhance the sense of identity of the people, the "we" is favoured over the individual "I". In this way, values such as participation, solidarity, friendship, etc. arise, promoting the development of the environment and generating economic, social and cultural wealth.

THEMATIC AXIS 2

Analysis of procedures that interpret and revitalize heritage through any discipline (theatre, music, dance, literature, new technologies ...). The historical re-enactments and their elements as examples of this revitalization and socialization of the heritage in any of its expressions.

- Exchanging experiences, projects and products between the main actors of the sector through practical workshops, with resources and contents related to the scene language.
- Focusing on the semantic definition of the historical manifestations
- Concentrate the annual meetings of working groups for members of entities such as the Association of Historical Celebrations and Re-enactments, European Networks related to this field, impact studies, etc.
